Professional Summary

Strategic technology leader with 15+ years of experience building and scaling software platforms, engineering teams, and technology organizations. Proven track record of leading cross-functional teams, modernizing development practices, implementing DevOps and AI-driven solutions, and aligning technology initiatives with business objectives. Experienced in software architecture, project delivery, budget optimization, vendor management, and organizational leadership. Combines deep technical expertise with a business-focused mindset to drive innovation, operational efficiency, and sustainable growth.

Executive Highlights

Promoted three times within Our Town America, progressing from Lead Software Engineer to Director of Software Engineering to Vice President of Information Technology.

20+ years of software development and technology leadership experience.

Led adoption of AI, DevOps, and cloud-based solutions across enterprise environments.

Built, managed, and developed cross-functional engineering and project management teams, including hiring, performance management, and promotion decisions.

AWS Certified Machine Learning Engineer and Cloud Practitioner.

Professional Experience

 OUR TOWN AMERICA | Vice President of Information Technology

Clearwater, FL | June 2026 – Present

Provided executive leadership for technology personnel, organizational planning, workforce development, and cross-functional collaboration.

Partnered with executive leadership to align technology initiatives with organizational growth objectives.

Directed IT operational assessments and vendor reviews, identifying opportunities for cost optimization and service improvements.

Established technology governance processes and cross-department collaboration frameworks to improve organizational efficiency.

 OUR TOWN AMERICA | Director of Software Engineering

Clearwater, FL | October 2025 – June 2026

Directed organization-wide migration from Subversion to Git, standardizing development workflows and improving collaboration across engineering teams.

Directed implementation of continuous integration and deployment pipelines to streamline development workflows.

Built and led a multidisciplinary engineering organization of 8 software engineers and project managers, responsible for recruiting, performance reviews, coaching, promotion planning, and workforce development.

Developed engineering talent through structured mentorship, performance evaluations, succession planning, and internal promotion initiatives.

 OUR TOWN AMERICA | Lead Software Engineer

Clearwater, FL | June 2015 – October 2025

Led development and deployment of an AI-powered assistant leveraging LLM and RAG technologies to improve internal operational efficiency and knowledge accessibility.

Maintained multiple client-facing mobile web apps using Flutter.

Built GIS/mapping software for demographic data visualization.

Generated CRM software utilizing Twilio and HelloSign APIs.

 MINIBEAST ENTERPRISES | Software Engineer

Orlando, FL | October 2021 – January 2025

Innovated hybrid mobile and web apps using Flutter, ReactJS, PHP, MySQL, and other technologies.

Managed and programmed Linux/Apache servers on various cloud environments.

Structured S3 content management systems and automated backups.

Designed social groups with features like body fat calculators and guided workouts with videos.

 CARNET MARKETING & CUSTOMER TRACK | Product Manager

Safety Harbor, FL | June 2010 – June 2015

Designed and launched proprietary enterprise CRM with PHP and MySQL.

Developed Call Center dialer software using Twilio, PHP, and JavaScript.

Managed Linux/Apache server infrastructure.

Education

 Western Governor's University | B.Sc. in Software Engineering

 St. Petersburg College | B.Sc. in Computer Science (incomplete)

 Pinellas Technical Institute | Web Design Principles | 2007
